Supplier Code of Conduct

At Raufoss Technology, we promote decent working and environmental standards in our supply chain. We wish to cooperate closely with our suppliers and business partners in pursuit of achieving such standards. The Supplier Code of Conduct covers human rights, workers' rights, the environment and other relevant topics.

Suppliers and sub-suppliers

The Code of Conduct applies to all suppliers and sub-suppliers that contribute to Raufoss Technology's products and other business related activities.

Compliance

Raufoss demands that the supplier and its sub-suppliers comply with the Code of Conduct. Compliance may be ensured through follow-up meetings, and/or inspections of the working conditions at production sites. The supplier is obligated to name and provide contact information for any sub-supplier that Raufoss Technology wishes to inspect.

Obligation to inform

The supplier is obligated to communicate the Code of Conduct to its suppliers, and to monitor implementation.

Consequence of breach

In the event of a breach of the Code of Conduct, the supplier is obligated to prepare a plan for remedying the breach. The plan is to be submitted to Raufoss Technology for assessment. Improvement must take place within a reasonable period of time.

The contract may be terminated if the supplier remains unwilling to correct the breach following repeated enquiries.

1. FORCED AND COMPULSORY LABOUR

- 1.1 There shall be no forced, bonded or compulsory labor.
- 1.2 Workers shall not be required to lodge deposits or identity papers with their employer and shall be free to leave their employer after reasonable notice.

2. CHILD LABOUR

- 2.1 The minimum age for workers shall not be less than 15 and comply with
 - i) the national minimum age for employment, or;
 - ii) the age of completion of compulsory education,whichever of these is higher. If local minimum is set at 14 years in accordance with developing country exceptions under ILO Convention 138, lower age may apply.
- 2.2 No person under the age of 18 shall be engaged in labor that is hazardous to their health, safety or morals.

3. DISCRIMINATION

- 3.1 There shall be no discrimination at the workplace in hiring, compensation, access to training, promotion, termination or retirement based on ethnic background, religion, age, disability, gender, marital status, sexual orientation, union membership or political affiliation. This statement also applies to indigenous people and other minorities.
- 3.2 Measures shall be established to protect workers from sexually intrusive, threatening, insulting or exploitative behavior.
- 3.3 Physical abuse or punishment, or threats of physical abuse, sexual or other harassment and verbal abuse, as well as other forms of intimidation, is prohibited.

4. DIVERSITY, EQUITY AND INCLUSION

- 4.1 Organizations shall embrace diversity in the workplace as well as in their supply chains. Diversity includes but is not limited to the following categories: gender, age, ethnicity, physical ability and manner of thinking.
- 4.2 Organizations shall be equitable towards all their employees, ensuring that norms, practices and policies in place are not predictive of opportunities or workplace outcomes.
- 4.3 Organizations shall strive to develop a sufficiently inclusive culture such that all employees feel their voices are heard and enable them to make meaningful contributions.

5. LAND, FOREST AND WATER RIGHTS AND FORCED EVICTION

- 5.1 The organization's activities shall in no way deprive people or communities of their right to land, forest and water.
- 5.2 The organization's activities shall in no way contribute to the temporary or permanent removal of people from the homes and/or land that they occupy, without the provision of, and access to, appropriate forms of legal protection.

6. FREEDOM OF ASSOCIATION AND THE RIGHT TO COLLECTIVE BARGAINING

- 6.1 Workers, without distinction, shall have the right to join or form trade unions of their own choosing and to bargain collectively. The employer shall not interfere with, or obstruct, the formation of unions or collective bargaining.
- 6.2 Workers representatives shall not be discriminated and shall have access to carry out their representative functions in the workplace.

7. WORKING HOURS

- 7.1 Working hours shall comply with national laws and benchmark industry standards, and not more than prevailing international standards.
Weekly working hours on a regular basis should not exceed 48 hours.
- 7.2 Workers shall be provided with at least one day off for every 7-day period.

8. WAGES

- 8.1 Wages and benefits paid for a standard working week shall as minimum meet national legal standards or industry benchmark standards, whichever is higher.
- 8.2 All workers shall be provided with a written and comprehensible contract outlining their wage conditions and method of payments before entering employment.
- 8.3 Utilization of deductions from wages as a disciplinary measure shall not be permitted.

9. REGULAR EMPLOYMENT

- 9.1 Obligations to employees under international conventions, national law and regulations concerning regular employment shall not be avoided through the use of short term contracting (such as contract labor, casual labor or day labor), sub-contractors or other labor relationships.
- 9.2 All workers are entitled to a contract of employment in a language they understand.

10. HEALTH AND SAFETY

- 10.1 The working environment shall be safe and hygienic, bearing in mind the prevailing knowledge of the industry and of any specific hazards. Hazardous chemicals and other substances shall be carefully managed. Adequate steps shall be taken to prevent accidents and injury to health arising out of, associated with, or occurring in, the course of work.

11. ENVIRONMENT

- 11.1 Organizations shall undertake measures to minimize adverse impacts on human health and the environment throughout the value chain. This includes the reduction of waste through the promotion of the responsible and sustainable use of resources including, but not limited to: water, cardboard, paper, plastics, hazardous materials, etc.
- 11.2 Organizations shall prioritize the use of renewable and clean sources of energy and shall strive to the minimization of their greenhouse gas emissions throughout the supply chain.
- 11.3 Transportation is to be conducted in accordance with current legislation in whichever country the transportation takes place.
- 11.4 Organizations shall report greenhouse gas emissions through the carbon disclosure program (CDP). Suppliers currently unable to do so are expected to develop a plan that would allow them to start reporting their carbon footprint in the near future.
- 11.5 Organization shall take the necessary actions to minimize their pollution and ensure that the quality of air and water, ensuing from their direct and indirect utilization, respect the local legislations. Air filters should be used in all outlets to purify the air and water should be purified before being discarded or otherwise contained and / or taken care of by specialized companies.
- 11.6 Organizations shall conduct a biodiversity, land-use and deforestation impact study before building, extending or modifying their footprint. Suppliers shall refrain from activities that negatively impact the local biodiversity, the condition of the surrounding land and of the local forests. Organizations shall comply with local legislations in regards to land utilization for building.

- 11.7 Local soil quality shall not be negatively affected by the activities of the organization. Organizations shall comply with local regulations in regards to soil quality, contamination monitoring and prevention.
- 11.8 National and international environmental legislation and regulations shall be respected and relevant discharge permits obtained.

12. ANTI-CORRUPTION

- 12.1 Corruption in any form is not accepted, including bribery, extortion, kickbacks and improper private or professional benefits to customers, agents, contractors, suppliers or employees of any such party.
- 12.2 Reports, records and invoices are to be accurate and complete, and they shall not contain any false or misleading information.

13. CONFLICT OF INTEREST

- 13.1 Any situation that may involve a conflict of interest must be avoided. For the purpose of this Code of Conduct, a conflict of interest arises where the interest (personal or private) of an employee or individual operating on the behalf of an entity conflicts with the best interests or poses a significant risk to the best interest of said entity. As a consequence of this the interests of Raufoss Technology or/and supplier/sub-supplier on the one hand and the personal interest of their respective employee (or with close relations to said employee) on the other hand must be kept separate.

14. FAIR COMPETITION

- 14.1 All applicable competition laws are to be complied with. Engagement in anti-competitive behavior, such as price fixing, bid rigging, market sharing or abuse of market power will not be tolerated.
- 14.2 Anti-competitive agreements are not to be entered in to, and anti-competitive conduct is not to be engaged in. This includes, but is not limited to, arrangements that influences price or terms of sale and allocation of markets by territory.
- 14.3 Non-public commercially sensitive information is never to be shared with competitors.
- 14.4 Suppliers and sub-suppliers are expected to compete fairly and ethically for all business opportunities. All communication, written and verbally, must be accurate and truthful.

15. TRADE SANCTIONS

- 15.1 All applicable economic sanctions as well as export and import control laws are to be complied with.
- 15.2 Applicable governmental licenses where cross-border export or import activity involves restricted items, technology or software are to be obtained and complied with.
- 15.3 Appropriate methods and processes are to be developed, implemented and maintained in order to minimize the risk of introducing counterfeit parts and materials into deliverable products.

16. INFORMATION MANAGEMENT AND CONFIDENTIALITY

- 16.1 Information created by or given to employees is to be protected to ensure appropriate confidentiality and integrity.
- 16.2 Applicable data protection laws and regulations are to be complied with when processing Personnel Data.
- 16.3 All applicable laws governing intellectual property right assertions, including protection against disclosure, patents, copyrights and trademarks must be complied with.
- 16.4 Suppliers are expected to implement and keep updated their security policies and protocols. Suppliers shall have incident response plans, business continuity and disaster recovery plans in case of security breaches

16.5 Suppliers shall provide regular security awareness training to their employees and implement a program to assess security risks posed by third parties.

17. RESPONSIBLE SOURCING OF MINERALS AND METALS

17.1 Due diligence is to be exercised within operations to ensure that metals and minerals are responsibly sourced and traded.

17.2 Applicable laws and regulations regarding conflict minerals are to be complied with, and due diligence is to be exercised on the source and chain of custody of these minerals.

18. WHISTLEBLOWER PROTECTION

18.1 No retaliatory action should be taken against any employees, which under suspicion of wrongdoing on the part of their employer take or entertain certain lawful actions. Such prohibited retaliatory actions include, but are not limited to the discharge, demotion, suspension, threatening, and harassment of the employees.

19. MANAGEMENT OF CHEMICAL PRODUCTS

19.1 Chemical products must not pose any risk to people or the environment. The import, manufacture, handling, recycling, and disposal of our chemical products shall comply with applicable national and international regulations on the protection of human health and the environment.

20. UNLAWFUL BEHAVIORS

20.1 Unlawful behaviors are strictly forbidden and will be punished according to applicable laws and regulations. Direct or indirect involvement of any kind in activities such as but not limited to: fraud, money laundering, bribery, corruption, terrorist financing, human or drug trafficking, business espionage, blackmail, identity fraud or counterfeiting will not be tolerated and may result in immediate termination of contract and/or have legal repercussions.

21. ARTIFICIAL INTELLIGENCE

21.1 In instances in which suppliers use artificial intelligence for product design and development, suppliers shall comply with all AI norms and laws applicable as well as any industry standards. Suppliers shall have clear internal guidelines involving the use of AI.

22. PRODUCT COMPLIANCE

22.1 Raufoss commits in delivering safe and best in class products to its OEM and final customers. As such, suppliers shall always act ethically and ensure that the products sold to all their customers comply with all implicit and explicit quality and safety requirements.

23. INDIGENOUS PEOPLE

23.1 Suppliers shall respect the rights of indigenous people and local communities affected by their operations. Suppliers shall obtain free, prior, and informed consent from local communities prior to developing on their land and shall considering all aspects including unlawful eviction, deprivation of land, forests, water and other resources necessary to their well-being, as well as conservation of cultural and religious sites.
